FOR IMMEDIATE RELEASE

LARGEST EVENT IN FIFTEEN YEARS FOR THE CFD VOLUNTEER CRISIS FUND

The night of the 15th Annual Dinner and Auction at Little America, the Cheyenne Frontier Days (CFD) Volunteer Crisis Fund (VCF) raised the most amount of money at a single event in its history for the Cheyenne Frontier Days Volunteers. Since its inception, they have assisted over 165 families with the support of its sponsors and contributors.

Fifteen years ago, the non-profit was founded after a volunteer was injured cleaning up after a concert due to lightning. Since then, the VCF has continued to grow and serve the volunteers as a thank you for all that they do.

Tickets for the event sold out in just two days, a record amount of time. For the first time in VCF history, Diamond Rio played for the event.

“Without the support of our volunteers, sponsors, and the folks and businesses who donate to us, I don't think we would have sold this event out in just two days. It's truly incredible, it's a testament showing how many people support us and what the VCF stands for. I can't say it enough; thank you to anyone who had a hand in this event. I am beyond proud of this organization and our record-breaking year, The hard work and dedication from the VCF board of directors are what makes this event happen, they are the ones who deserve all the credit, not me. I can't thank each of them enough. Get ready for a fun two-night event in 2023,” says president, Jeremy Lopez.

At next year's event, the VCF will hold a concert the night before the 16th Annual Dinner and Auction. Both days will be held at Little America.

For more information, the CFD VCF can be reached at marketing@cfdvcf.com or by visiting the website at www.cfdvvcf.com.
